MAKE LICENSING EASY

Let us show you how Gov2Biz can help your agency.

gov2biz

gov2biz

Issue, Inspect, Enforce and Service licenses easier, faster and more effectively with Gov2Biz by getting your licensees, office and field employees on the same platform.

One Platform

Centralize. Collaborate. Control. Succeed.

Running a licensing agency is hard work. There are licenses to issue, inspections to conduct, investigations to perform, complaints to resolve and open records to fulfill. You also have to track and report on key performance measures. There is just not enough time or resources to get all this done.

With Gov2Biz, you can simplify all of this. Gov2Biz is a comprehensive regulatory agency management solution that brings all your licensees and employees; rules and regulations; data and documents on one platform. By centralizing all these, you can streamline collaboration across departments and with licensees, thus multiplying your processing speed. With the automated tracking, housekeeping, e-mails, notifications etc., you'll realize efficiency that you never knew was possible.

Here are a few capabilities you get with Gov2Biz:

- Online license application and approval
- Self-service and assisted license maintenance
- Risk profiling & inspection scheduling
- Online payment of fees, renewals and penalties
- Complaints Processing

Gov2Biz works on any smart phone or tablet and computer, so your users can take care of business anywhere. Gov2Biz is based in the cloud, so you get all the backup, fail-safes, and scalability you need without worrying about the hardware or infrastructure.

Make Licensing Easy.

One Platform

Simplify your world

Centralize

Get all your licensees, employees, data, documents, rules, records, transactions and communications in one place. Eliminate the wasted time, energy and frustration associated with tracking, maintaining and synchronizing different channels.

Collaborate

Break down silos and streamline communication by allowing your licensees and employees from all departments to share information, divide work and collaborate to get work done faster, smoother and more effectively.

Control

Get a bird's-eye view of your agency using comprehensive metrics that allow you to identify bottlenecks, review trends and predict workloads. Generate any conceivable report at the click of a button. Take control of your agency.

Succeed

Give your employees and your customers the tools they need to be successful and yourself the capability to monitor, measure and control everything that goes on in your agency. Make your agency easy to do business with and a great place to work. Enjoy success.
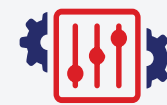

Flexibility & Control

All your needs met. Period.

With Gov2Biz, you get the stability of a commercial product and also the flexibility of a custom built software. It is compliant to all leading industry standards for security and usability and is 100% mobile compatible right out of the box. It is based in the cloud, so you can have all the backup and scalability you need without worrying about the hardware.

Gov2Biz can be configured to meet the most demanding legislative needs, complex business processes, specific preferences and to easily accommodate ever-changing regulations.
